

# BREADBOARDS GL12

**New! Transparent to show the electrical connections**

Nickel plated tie points All sizes available

The basic GL12 can be connected to form any size required

## **SAFETY LEADS** (don't fall foul of the consumer protection act)

These stackable plugs have a sheath which retracts when inserted into any standard socket. The tip is also insulated with a red insulating material so that the learner must purposely get shocked! He needs two hands: one to pull the sheath and one to touch the exposed part of the terminal

**Single Plugs and Sockets** are also available

Red, yellow, blue, green, black
